

TUMAINI SICKLE CELL ORGANIZATION QUARTER 1 NEWSLETTER 2026

We are pleased to share with you the highlights and upcoming activities of Tumaini Sickle Cell Organization for the first quarter of the year. Your continued support and collaboration are vital in advancing our mission to combat Sickle Cell Disease (SCD) through awareness, research and community engagement

1. Blood Donation Drive & SCD Genotype Screening at Great Lake University

In an inspiring effort to promote blood donation and SCD awareness, we hosted a successful blood donation drive at Great Lakes University. The event also offered free SCD genotype screening for students, providing essential testing and education on Sickle Cell Disease. We are grateful to all volunteers and participants who made this initiative impactful.

2. Signing of Memorandum of Understanding (MoU) with JOOUST

We signed a MoU with Jaramogi Oginga Odinga University of Science and Technology (JOOUST). This collaboration aims to facilitate joint research projects on SCD, with a focus on innovative solutions and community health improvements. We look forward to the potential breakthroughs that this partnership will bring.

3.The Giving Exchange (TGE) Entrepreneurial Training

We are proud to share that on the 12th and 13th of last week, Tumaini Sickle Cell Organization was honored to be selected among 12 outstanding organizations whose social enterprise proposals qualified for the Entrepreneurial Skills Training hosted by The Giving Exchange (TGE) under the Kisumu Cohort.

This opportunity marks a significant step forward in our mission to create sustainable impact for individuals and families affected by sickle cell disease. By strengthening our social enterprise model, we are better positioned to deliver long-term solutions, empower communities, and expand our reach.

We are excited to learn, grow, and refine our approach as we continue advocating for better health outcomes and economic empowerment. A big thank you to tuiFUND for connecting us to The Giving Exchange (TGE) for this incredible opportunity and for investing in grassroots organizations driving change.

Upcoming Events

I. Medical Camps Collaboration

Siaya County Medical Camp

Date: 11th April 2026

Tumaini will partner with the Kenya Medical Association (KMA) and Dr. Joseph Aluoch Foundation to support medical services in Siaya County. Our role will include educational outreach on SCD and community screening.

Nyakach Sub-County Hospital Medical Camp

Date: 24th & 25th April 2026

In collaboration with the Kisumu County Department of Health, Tumaini will participate in a comprehensive medical camp to serve the local community, emphasizing SCD education and screening.

2. University Pilot Sickle Cell Genotype Screening & Awareness Program

Date: 8th May 2026

**Location: JOOUST Main Campus,
Bondo**

Together with our partners—JOOUST, AMPATH, Dr. Sam Mbunya Health and Leadership Consultancy, Innovative Hematology Inc., and Silverlake Research Company/HematotypeCS—we will launch a pilot program offering voluntary sickle cell genotype screening, counseling, education, and awareness to university students. This initiative aims to promote early detection and community health empowerment.

Thank You for Your Support!

Your involvement makes these impactful activities possible. We remain committed to our mission to eradicate Sickle Cell Disease through community engagement, research, and advocacy. Stay tuned for updates and future events!
